

***Prophecy to Rob Bewley from Simon Braker: Learning to Hear God's Voice
Conference at CtK on 29th April 2017.***

Rob, I saw you stood in the building. I saw the walls of the building kicked out and I heard the Lord say, **"It's time for expansion and increase."**

And I looked at it and I thought, *Lord that makes no sense whatsoever because this is a beautiful big building.*

And then He said, **"And it's time to plant as well."**

And I said, *Lord that's mad. You don't have a building project, and also plant at the same time.*

But the Lord says, **"This is the season. You've been saying, 'Lord, I want to move into increased levels of risk,' and the Father is saying, 'I am honouring your faithfulness, son, for you've been willing to push the boundaries, and at times it has cost you dearly; you have received hostility and resistance and even at times you've been pushed back, but you've been faithful in the last season and now, watch and see if I don't kick the walls out of this building and not only expand your geography but also expand your influence. There is funding that you're yet to tap, that is going to be released to you, for I say to you that there are school influences that I'm going to give to you, that there are community influences I'm going to give to you, because I've called you to be even as a church a city of refuge for the broken and the needy.'"**

I just feel that there is a breaking forth into different ethnic groups. You've been saying, 'Father we want to become multinational, we want to find an expression that's more broad than we currently have,'² and God says, **"Because you're thinking Kingdom, I'm going to bring Kingdom Resource."**

And I'm not just praying for [Rob]. So while I'm praying for him if you've been a part of this Church you receive as well. Father I say to the current walls of experience, *are you ready?*

I see some of you have got like an elastic band attached to your back and it keeps snatching you backwards and pulling you back into old experience and the Lord says, **"The band is broken and you're coming into a new season."** Right now I speak to every tether, right now in Jesus' name and *every tether and I break it now in Jesus' name, I break it in Jesus' name. I speak to the lids and I tell them to move.*
